Education

SRKR Engineering College (A)

B.Tech. in Information Technology, Bhimavaram, Andhra Pradesh

2023 - 2027

CGPA:8.75

Technical Skills

Programming Languages :Java, TypeScript, Python (Beginner)
Backend Technologies : Spring Boot, RESTful APIs, JWT Authentication , Docker
Frontend Technologies : HTML, CSS, React.js, JavaScript, Angular, Bootstrap, TailwindCSS
Databases : MySQL, PostgreSQL, SQL
Developer Tools : Git, GitHub, Postman, IntelliJ IDEA, Visual Studio Code

Work Experience

Navodita Infotech - Java Developer Intern

March 2025 – April 2025

- Engineered production-ready **Spring Boot** backend features, including an automated email notification system using **JavaMailSender**, enhancing user engagement and communication in a fully remote internship.
- Integrated token-based authentication using Spring Security and **JWT**, enabling secure user logins and independent session management across a distributed user base.
- Designed and deployed **RESTful APIs** using **JPA/Hibernate** and MySQL, ensuring reliable data persistence for user profiles and submissions in a collaborative, distributed team environment.

Projects

Campus Alumni Hub | *React, Tailwind CSS, Spring Boot, PostgreSQL*

🔗 GitHub

- A scalable alumni management platform that improved onboarding efficiency and profile management accuracy for a user base of 500+ alumni.
- Backend services using **Spring Boot** with **MVC architecture** and REST principles.
- Implemented **role-based authentication and authorization** for Admin, Staff, Student, and Alumni roles, enhancing access control coverage to 100% of user-facing features.
- Developed REST APIs for alumni registration, role management, and communication workflows.
- Integrated a **PostgreSQL** database with secure data access and validation.

Clubs Management System | *Angular, Tailwind CSS, Node.js , Express.js*

🔗 GitHub

- A centralized web application to manage student clubs, events, and memberships, supporting **users** across multiple institutional roles.
- Developed **15+ RESTful APIs** using **Node.js, Express.js** to handle user management, club operations, and event workflows, improving backend response efficiency.
- Built responsive and accessible user interfaces using **Angular** and **Tailwind CSS**, achieving seamless compatibility across **desktop, tablet, and mobile devices**.

Certifications

Data Structures and Algorithms: GeeksForGeeks (GFG160) (2025)

[Certificate]

Structured Query Language (SQL): Sololearn (2024)

[Certificate]

Python Programming [Essentials1] and [Essentials2]: Cisco Certified (2024)

Achievements

- Completed GFG160 - solved 150+ DSA Questions (2025)
- Executive Body Member of **Coding Club**: Actively participated in coding sessions and collaborative projects, engaged in problem - solving and tech discussions.
- Guided 4+ junior engineers through full project life cycles in **PRAKRITHI QUEST** at SRKR Engineering College, increasing completion rates by **40%** and boosting technical skills and confidence. (2025)
